

## Lab 1

Write the DOS commands for doing the following with proper syntax:

1. Create a directory named diploma under C:\

```
Administrator: Command Prompt
C:\>mkdir Diploma
C:\>
```

2. Change the directory to diploma.

```
C:\>cd Diploma
C:\Diploma>_
```

3. Display all the files and sub directories in C:\ starting with a particular letter.

```
C:\Diploma>dir \A* /s
Volume in drive C has no label.
Volume Serial Number is 9A06-26E2

Directory of C:\ESD\Windows

12/04/2023  02:45 AM                128 autorun.inf
               1 File(s)                128 bytes

Directory of C:\ESD\Windows\sources

12/04/2023  02:45 AM           370,144 acmigration.dll

               22 File(s)       9,426,904 bytes

Directory of C:\ESD\Windows\sources\dlmanifests
```

4. Create a file under the directory diploma and enter the Address into it.

```
C:\Diploma>echo Anudip Foundation Airoli Navi Mumbai > \address.txt
C:\Diploma>
```

5. Copy the file with a specific extension name from one directory to the other.

```
C:\Diploma>copy C:\Users\Administrator\Downloads\Anudip.txt C:\Users\Administrator\Documents
1 file(s) copied.
C:\Diploma>
```

6. Display the Date and Time information.

```
C:\Diploma>echo %date% %time%
Mon 06/15/2026 14:26:17.77
C:\Diploma>_
```

7. Rename the file.

```
C:\Diploma>rename Anudip.txt Myfile.txt
C:\Diploma>_
```

8. Delete all the files starting with a specific letter in a directory.

PC > Local Disk (C:) > Diploma

| Name       | Date modified     | Type          | Size |
|------------|-------------------|---------------|------|
| Anudip.txt | 6/15/2026 2:31 PM | Text Document | 0 KB |
| As.txt     | 6/15/2026 2:31 PM | Text Document | 0 KB |
| Myfile.txt | 6/15/2026 2:28 PM | Text Document | 1 KB |

```
C:\Diploma>del A*
C:\Diploma>_
```

| his PC > Local Disk (C:) > Diploma                                                           |                   |               |      |
|----------------------------------------------------------------------------------------------|-------------------|---------------|------|
| Name                                                                                         | Date modified     | Type          | Size |
|  Myfile.txt | 6/15/2026 2:28 PM | Text Document | 1 KB |

9. Delete all the files in a directory.

```
C:\Diploma>del *  
C:\Diploma\*, Are you sure (Y/N)? y  
C:\Diploma>_
```

10. Remove a directory

```
C:\>rmdir Diploma  
C:\>_
```
